1. This application has been filed with informal drawings which are acceptable for

examination purposes only. Formal drawings are required now because the application

is allowed.

2. Claims 1-11 are allowed.

The following is an Examiner's Statement of Reasons for Allowance: 3.

The prior art of record teaches the claimed invention substantially, but it fails to

teach or suggest singly or in combination a method/apparatus for calculating a Cyclic

Redundancy Check (CRC) value for a multi-bit input data word using a defined

generator polynomial having a length comprising the steps of: serially shifting at least a

portion of the input data word into a register; XORing the contents of the register with

the generator polynomial if the LSB of the register is '1'; shifting the contents of the

register right by one position; shifting into the MSB position of the register a new bit of

the input data word, having been XORed with the LSB of the register; repeating the

previous step for all message data bits; shifting into the register a number of '0's equal

to the length of the generator polynomial; and reading from the register the calculated

CRC value as set forth in independent claims 1, 5, 6 and 8.

4. Any comments considered necessary by applicant must be submitted no later

Page 3

than the payment of the Issue Fee and, to avoid processing delays, should preferably

accompany the Issue Fee. Such submissions should be clearly labeled "Comments on

Statement of Reasons for Allowance".

5. The prior art of record and not relied upon is considered pertinent to applicant's

disclosure.

6. Any inquiry concerning this communication or earlier communications from the examiner

should be directed to David Ton whose telephone number is (571) 272-3828. The examiner

can normally be reached on M-Th from 5:30 - 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Albert DeCady can be reached on (571) 272-3819. The fax phone number

for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the

Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free).
